Response to Amendment

The examiner is in receipt of applicant's response to office action mailed 1/30/2009, which was received 5/4/2009. Acknowledgement is made to the amendment to claims 1-3,7-12,14-16,18, 19, the cancellation of claims 1,4 and the addition of claims 20-22. Applicant's amendment and remarks have been carefully considered and were found to be persuasive. However, after further search and consideration the following new ground of rejection follows that was necessitated by amendment. Applicant's remarks regarding the USC 112 rejection were persuasive and that rejection has been removed.

Claim Rejections - 35 USC § 112

Subject to the following paragraph, a claim in dependent form shall contain a reference to a claim previously set forth and then specify a further limitation of the subject matter claimed. A claim in dependent form shall be construed to incorporate by reference all the limitations of the claim to which it refers.

Claims 6 and 19 are rejected under USC Fourth paragraph as not limiting the independent claim that it is dependent from because it removes the feature "receiving a broadcast radio media including information relating to goods and services that can be purchased by persons receiving the media"

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 3625

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1,2,5-10,12-13,16,18-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Christensen (US 6,957,041).

In regards to claims 1,2,5-10,12-13,16,18-22, Christensen teaches all the features of the instant invention. For instance, Christensen discloses broadcasting information that a party records (col 6, lines 64-67) and

wherein upon verification of the purchase data, the purchased goods and services are directly downloaded to the broadcast radio receiver (col 5, lines 25-35).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3, 11 and 15 rejected under 35 U.S.C. 103(a) as being unpatentable over Christensen in view of Moskowitz et al (US PG PUB 20020116261).

In regards to claims 3,11, and 15, Christensen teaches recording information for later purchase (col 6, lines 64-67), but does not specifically mention that the information is transmitted at a specific location. Moskowitz teaches storing purchase data and then transmitting the data a gasoline dispensing device at a specific location (FIG 7). It would have been obvious to a person having ordinary skill in the art at the time of the invention to include in Christensen transmitting purchase information at a

Art Unit: 3625

specific location, because this will allow the vehicle download information when the vehicle is outside a broadcast area therefore assure that a transaction might be completed without missing a sale.

Response to Arguments

Applicant's arguments with respect to claims 1-3,7-12,14-16,18-22 have been considered but are moot in view of the new ground(s) of rejection necessitated by amendment.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
